## Area Prevention Resource Centers

Updated: July 12, 2010

# Keep In Mind

- This is from ONE data source
- The OPNA has limitations
- 3 counties are not included

# SEOW's Recommendations

- Data is lacking to justify “hot spot” approach
- Equity/hybrid model
- Funding is allocated to each Area Prevention Resource Center (APRC)
- Community level data/needs assessment will determine selection of priority

# SEOW's Recommendations Continued

- Tulsa County as an enhanced comparison site
- Compare Tulsa to a community such as Oklahoma County

# Thank You!
